I encourage a lifetime commitment to NuVet Plus and NuVet Joint as an inexpensive and excellent health and immune boost for your puppy who has been on it since conception. Please read these testimonials.

<https://www.nuvet.com/testimonials.html>

To order: www.nuvet.com/11726 or call 800-474-7044 and give them the code 11726

Registration papers will be sent when they return from the ABCA Registry. Please know that it can take up to six weeks or more for the ABCA to process.

This puppy is guaranteed for good hips through age 2. This means that if your pup has evidence of hip dysplasia through 2 yrs old, either your purchase price will be refunded or you will receive another puppy...and you get to keep the one you have. Certification by two separate and qualified veterinarians with experience in canine hip dysplasia from current X-Rays showing that the dog is affected and the condition is genetic and not environmental is required. If your pup stays on NuVetPlus for one year and shots current, clean and safe environment, health care, quality food and clean water provided, I guarantee him to be free of any diseases covered by vaccine for his first year.

If you decide you no longer can keep this dog you must return to GCRBC's for evaluation and rehoming. We understand life happens and should such an occasion arrive our goal is to ensure that the dog we bred never be lost in a shelter or rescue. If you decide to sell the dog we reserve first right of refusal. If you cannot keep the dog and desire to sell or find an adoptive family we will assist with that service fee free.
